## NATURESORT FLOOR CARE INSTRUCTIONS

1. A Naturesort Laminate Floor is the closest thing there is to a "maintenance free" floor. The melamine-impregnated surface with aluminum oxide makes it resistant to dirt and dust. Ordinarily vacuuming or sweeping is usually sufficient to keep the floor clean. If needed, occasionally clean with a cloth or mop (micro-fiber or terrycloth hooded) slightly moistened.
2. IMPORTANT TIPS:
  - Never flood the floor with water.
  - Do not use soap-based detergents, as these may leave a dull finish on your floor.
  - Do not use abrasive cleaners, steel wool or scouring powder, as these may scratch your floor.
  - Never wax, polish, sand or lacquer a Naturesort Laminate Floor.
  - Use doormats outside each entrance to your home to prevent dirt, sand, grit and other substances such as oil, asphalt and driveway sealer from being tracked onto your floor.
  - For furnishings, use wide-bearing, non-staining floor protectors, such as clear, hard plastic or non-staining felt protectors, for heavy furnishings.
  - Promptly remove all liquid spills, including pet urine.
3. The overall stain resistance of our Naturesort Laminate floors is excellent and most spills will wipe off quickly and easily with a clean, white cloth. Removing certain substances may take a little extra effort, as outlined in the chart below.
